Academic Details

- **Master of Computer Applications**
  Lalit Narayan Mishra Institute Of Economic Development And Social Change, Patna
  CGPA: 7.73
  (PASSOUT- DEC 2022)

Soft Skills

Analytical | Collaborator | Adaptable

Technical Skills

- **Languages:**
  Python, SQL
- **Frameworks:**
  Django, DRF,
- **Tools:**
  MySQL, PostgreSQL, Git, Postman, ORM
- **Platforms:**
  Visual Studio Code, PyCharm

Core Competencies

Python Development

Problem-Solving

Restful API

Database Management

Version Control

Testing & Debugging

ETL processes and data manipulation

Data Cleaning & Data Modeling

Object-Relational Mapping(ORM)

Work Experience

Python Developer
Netling Digital Pvt Ltd., New Delhi   **Feb 2023 – June 2024**

Responsibilities:
- Developed and maintained backend systems using Python and Django REST Framework (DRF).
- Built and optimized RESTful APIs for seamless integration with front-end systems.
- Collaborated with cross-functional teams to gather requirements and deliver tailored software solutions.
- Ensured code quality and performance optimization by writing efficient, maintainable, and scalable code.
- Worked with PostgreSQL and MySQL databases, utilizing ORM tools for effective data management.
- Utilized Git for version control, managing code updates and facilitating team collaboration.
- Contributed to project documentation, ensuring clear communication of project status and technical requirements.

Project Intern
Centre for Railway Information Systems., New Delhi   **June 2022 – Jan 2023**

Responsibilities:
- Developed and debugged application programs independently using Python and Django.
- Built responsive web applications with HTML, CSS, Bootstrap, and JavaScript.
- Created user-friendly web forms with validation and error handling.
- Collaborated with senior developers to enhance UI/UX and deliver production-ready code.
- Participated in code reviews and testing to ensure software quality.

Achievements:
- Developed and deployed key application features independently, streamlining project development and delivery.
- Improved user interface responsiveness, enhancing user experience and overall engagement.
- Implemented effective debugging and error-handling processes, leading to a significant reduction in issues.
- Earned positive feedback from senior developers for delivering high-quality, efficient code.

Certifications & Courses:

Data Analytics and Visualization
Platform: Accenture

Data Engineering for Beginners with Python and SQL
Platform: Udemy

Getting Started With AWS
Platform: Simplilearn

Scientific Computing with Python
Platform: freeCodeCamp

Business Intelligence using Power BI
Platform: Skill Nation
